About

The Highloft is the space where entrepreneurship, inspiration and creativity meet. It is designed to enable inspiring encounters and ideas exchange.

The birthplace of great partnerships, ground-breaking ideas, ambitious business plans and personal and professional development.

It is a creative space for meaningful interactions and fun experiences.

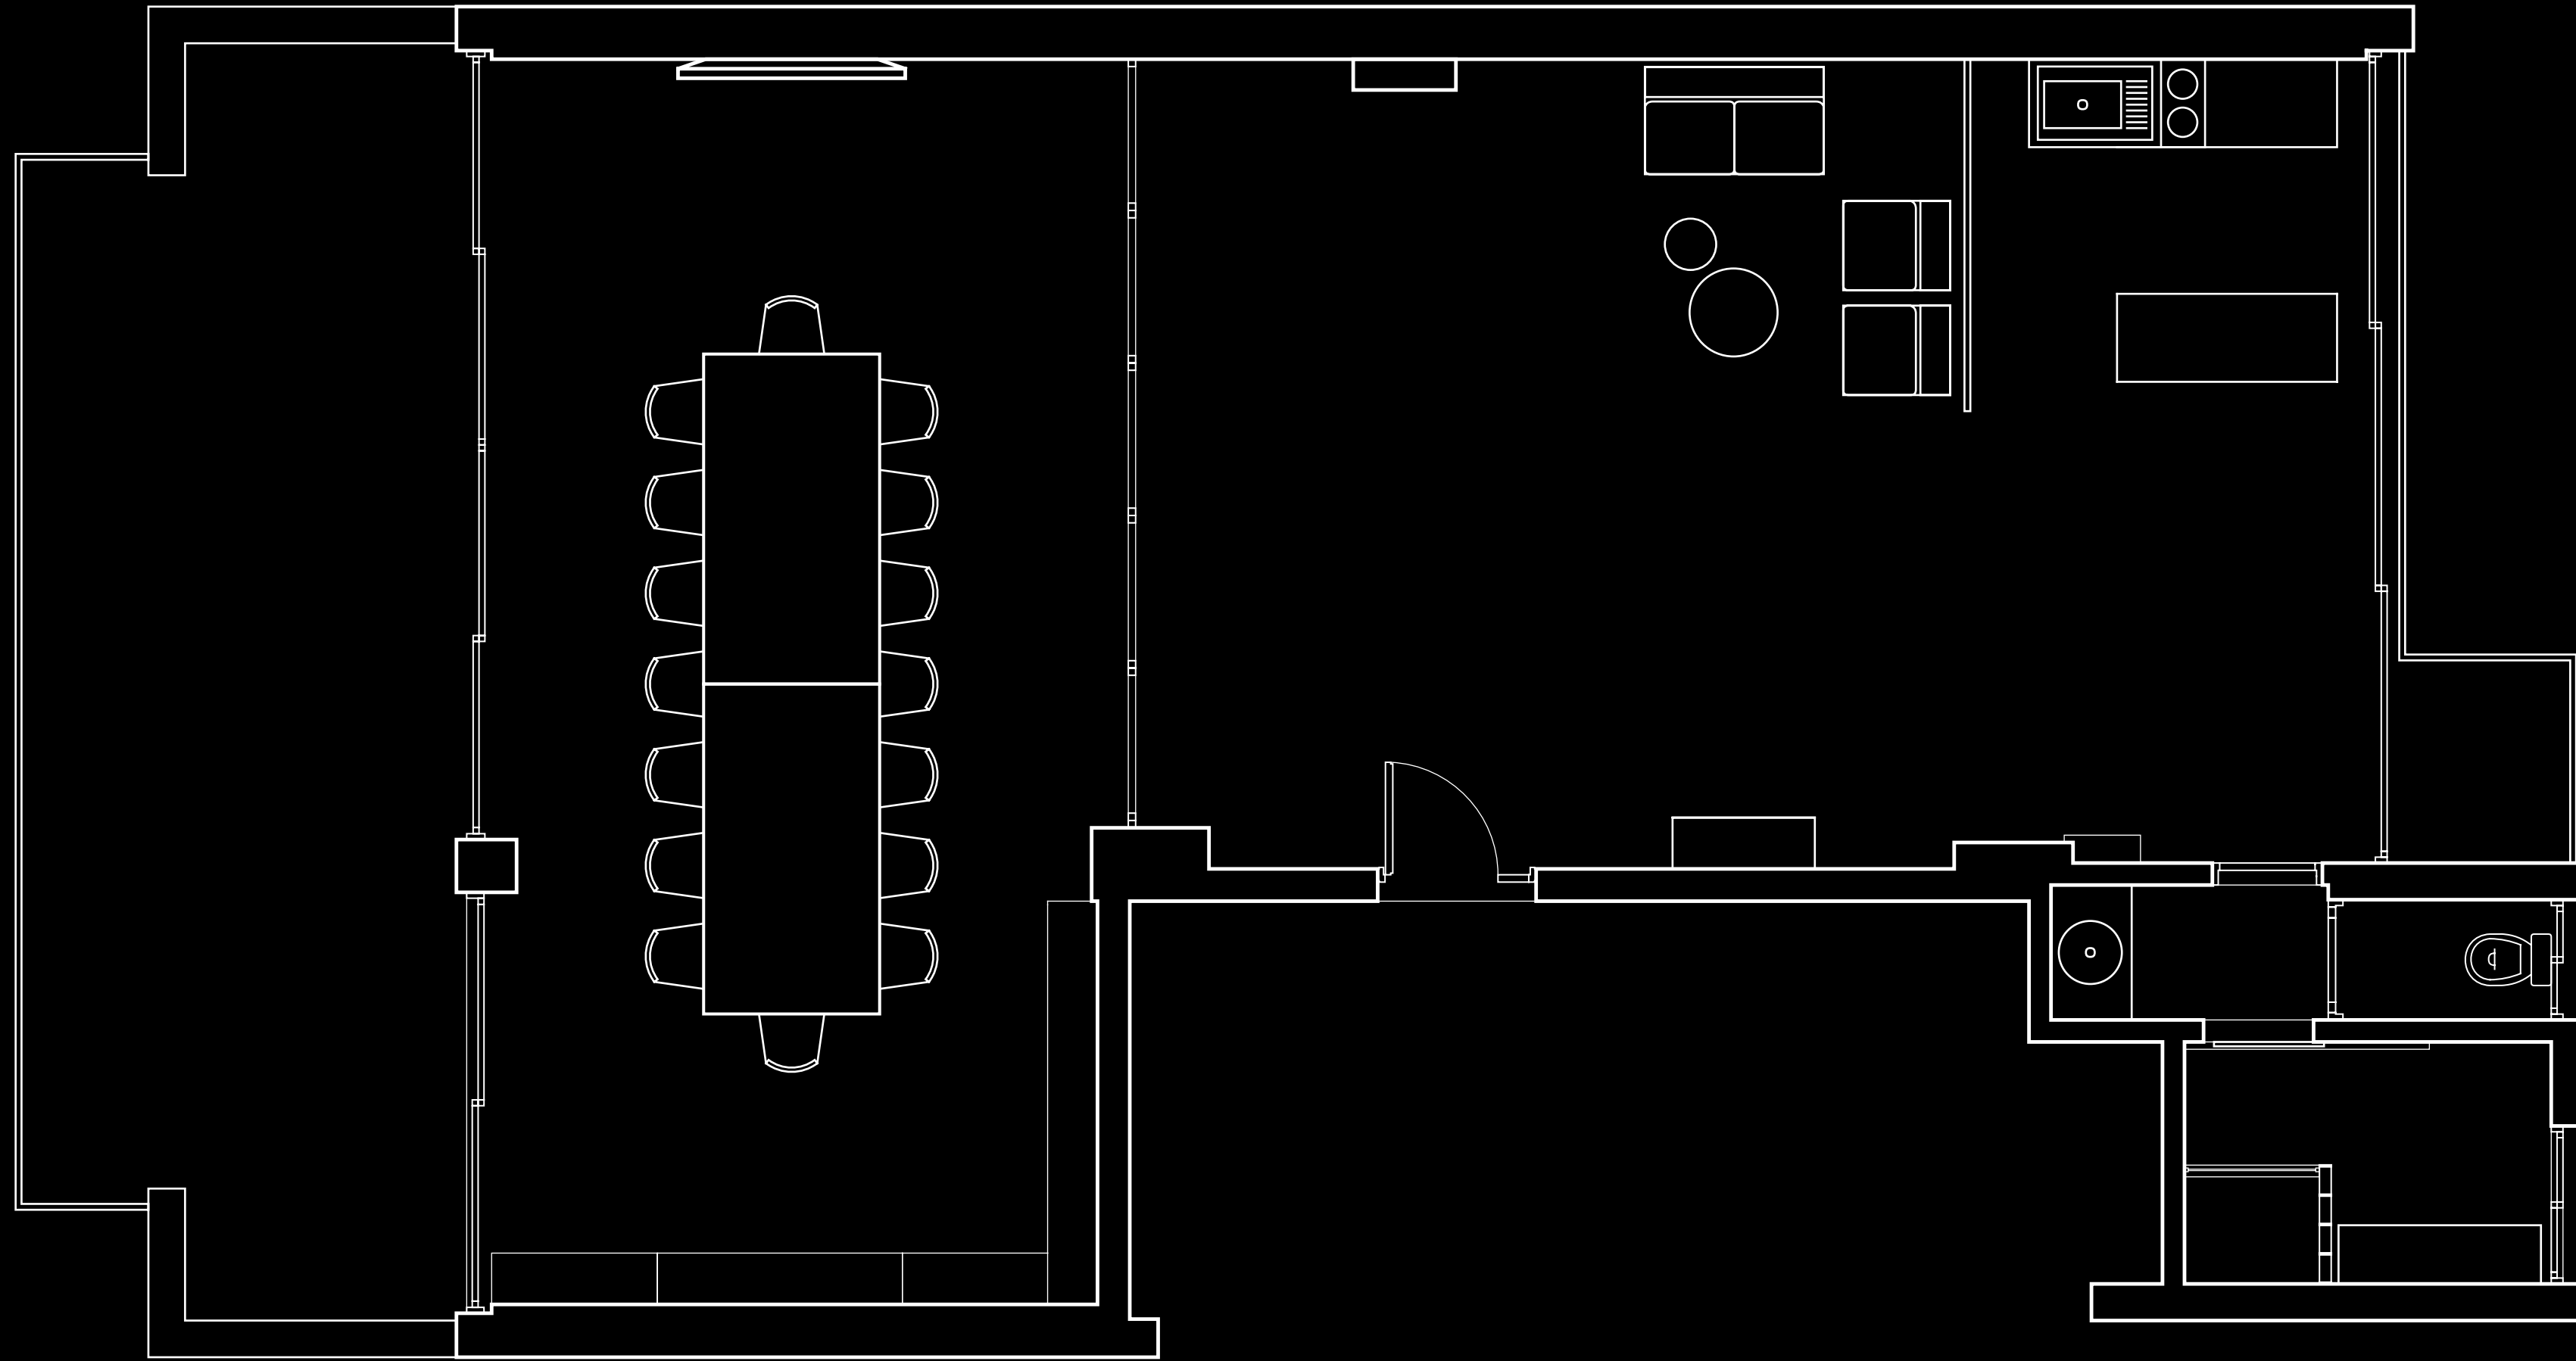

Venue

A space of creative restlessness

Influenced by 80s Hollywood aesthetics, androgyny, light and shadow and the industrial history of the building it is located, The Highloft architecture comes to play a central role in intensifying the guest's experience.

In an industrial setting, glass, metal and leather furniture create an environment of high aesthetics and undisturbed finesse. Sunlight is present at all times during the day to create dramatic shades and colours as it comes through the blinds and louver.

The Highloft can accommodate up to 70 people and the flexibility of the space makes it an ideal event location of any type of company event throughout the day or night
